

Hello, my name is Davin Knowles. I was introduced into non destructive testing (NDT) by Charles Holloway. When I met Charles in 2011 I was working at a warehouse facility loading tires on trucks for \$10 an hour. My original plan was to go to the military, but due to a bad decision I made at the age of 20 (DUI) I was deemed ineligible.

At that point I thought all hope of a good financial future was gone. It was then Charles took me under his wing and helped me enroll in my first NDT courses (MT & PT). After taking these courses I decided to quit my warehouse job and pursue NDT full time. Since then I have been able to study other NDT disciplines (UT, DRT, ET).

I've worked on airplanes, spaceships, nuclear power plants etc. I've traveled all across the USA and met an array of different people with whom I have formed lifetime bonds with. I couldn't have reached this point of my life/career without Charles. I greatly appreciate his guidance and patience with me.
